Purpose of Fire Hydrant Meter: _____

The deposit and rental fee will be required at time of application. Once received the meter will be installed and read monthly by a City of Forney meter technician. If the meter needs to be relocated, contractor must inform Utility Billing at (972) 564-7304 and a meter technician will move the meter.

A bill will be generated on the 30th of each month and payment is due by the 15th. When ready for the meter to be returned, please contact Utility Billing and a technician will pick up and inspect the meter. If the technician determines that the meter is damaged, and/or missing parts, the replacement cost for parts will be taken from applicant's deposit.

If the meter is lost or stolen in the applicant's possession, the City of Forney will retain the full amount of the deposit to cover the cost of replacement. The customer/contractor will have to place a new deposit on the account and they will be issued a new fire hydrant meter.

I understand and agree to the above terms and stipulations.
