February 10, 2020

Dear Mr. Casey,

In regards to the two tracts per John Casey email we would like to submit the follow proposal for those sites.

For Parcel 30061 (KCAD Site)

To provide a topographic survey of the site the cost will be \$2500.00. To provide a boundary for the site the cost can range for \$1500 to \$3000. The reason for this range is without surveying the site and surrounding tracts we don't know how far off site we will need to go to fine information to determined a boundary for this site. It very well could be we find all the boundary evidence on day one. However, we have surveyed towns where no evidence was found in the vicinity and we ended surveying 6 blocks away to established a boundary. To prepare a Amending plat the cost will be \$1500.00. To located and tag trees the cost will be \$500 to \$1000. This quote is may change after 30 days due to changes in the site (Tree and bush growth).

For Parcel 20400 (KCAD Site)

To provide a topographic survey of the site the cost will be \$2000.00. To provide a boundary for the site the cost can range for \$1500 to \$3000. The reason for this range is without surveying the site and surrounding tracts we don't know how far off site we will need to go to fine information to determined a boundary for this site. It very well could be we find all the boundary evidence on day one. However, we have surveyed towns where no evidence was found in the vicinity and we ended surveying 6 blocks away to established a boundary. This quote is may change after 30 days due to changes in the site (Tree and bush growth)

If you have any questions please call.

Sincerely,

David J. Surdukan
