Zoning Ordinance Considerations:

The City of Forney Comprehensive Zoning Ordinance provides the following factors for the Planning and Zoning Commission to consider in making a zoning determination:

1. Whether the uses permitted by the proposed change will be appropriate in the immediate area concerned, and their relationship to the general area and to the City as a whole;
2. Whether the proposed change is in accord with any existing or proposed plans for providing public school, streets, water supply, sanitary sewers, and other utilities to the area;
3. The amount of vacant land currently classified for similar development in the vicinity and elsewhere in the City, and any special circumstances which may make a substantial part of such vacant land unavailable for development;
4. The recent rate at which land is being developed in the same zoning classification as the request, particularly in the vicinity of the proposed change;

5. How other areas designated for similar development will be, or are likely to be, affected if the proposed amendment is approved; and
6. Any other factors which will substantially affect the public health, safety, morals or general welfare.

Future Requirements:

If approved, future development of the property will require approval of:

1. Preliminary and Final Plats
2. Traffic Impact Analysis
3. Civil Plans
4. Building Plans (staff approved)

Parkland Dedication:

Staff recommends acceptance of fees-in-lieu of a land dedication. For 374 single-family lots at a rate of \$1,548 per lot, the total fee is \$578,952.

Recommendation:

The request was originally considered by the Planning and Zoning Commission on February 6, 2020. The Commission did not approve the request. Prior to an appeal at City Council, the applicant decided to bring a revised request back to the Planning and Zoning Commission. On April 2, 2020, the Commission voted 4-1 to recommend denial of the rezoning. Prior to making the motion to deny, Commissioner Holler stated that there were many similar lots already available in adjacent developments (Gateway Parks and Fox Hollow). A supermajority vote of City Council is required to overturn the Planning and Zoning Commission recommendation.
