Item Title: Consider approval for the City acceptance for the Public Works Sidewalk Improvements Project.

Attachments:

Summary Statement:
This project scope was to remove and replace concrete sidewalks on Downing Street and Center Street. There was a small amount of new sidewalk construction that was included in the project and that abutted up to these areas.

This project is in the final closeout phase as all work has been completed. A two-year maintenance period becomes effective once approved and accepted by City Council.

The original contracted amount with Tex-Pro Construction, LLC. was $61,464. There was one change order that has resulted in an increase of $13,548 to be added to the project. The final contract price is $75,012.
