Item Summary:

The Police Department is seeking Council authorization as part of its overall grant application for additional portable radios and TASERs (i.e. conducted energy weapons). The Forney Police Department (FPD) does not have a sufficient quantity of portable radios to properly equip officers from other agencies and Forney Citizens on Patrol volunteers with portable radios during special events. FPD currently issues TASER X26 conducted energy weapons to officers. These are older units, and some are no longer serviceable. They have been discontinued by Axon, the parent company of TASER. Part of the project requests grant funding for new conducted energy weapons. This grant has no match requirement and no costs to the City of Forney.
