Final Plat

**Item Summary:**

Jones Carter, representing the property owner, requests approval of a final plat for Gateway Phase 4. The purpose of the final plat is to establish the lot boundary and necessary easements for the development of a new multi-family residential phase.

**Current Standards:**

The 14.07-acre property is currently vacant and undeveloped. The property is zoned within the Meadow Ridge Farm Planned Development (Ordinance No. 13-04). The ordinance that governs this property was approved by City Council on February 19, 2013. An amendment (Ordinance No. 18-35) that permits multi-family developments up to 24 units per acre was approved by City Council on September 18, 2018.

The underlying zoning of this property is MF-15, which permits Multi-Family Apartment developments under 24 units per acre. The property is bordered by the already completed multi-family phases to the northwest and to the southwest.

**Final Plat:**

The final plat consists of one lot and 14.07 acres of land. The final plat provides the fire lane layout for the development and establishes the necessary easements for development. Water easements and utility easements are provided throughout the property. The final plat meets the requirements of the City of Forney Subdivision Ordinance.

The developer will be responsible for paying fees-in-lieu of a land dedication and park development fees totaling \$199,320. This payment would be required before the final plat is recorded.

**Accessibility:**

The property has direct access to North Gateway Boulevard.

**Future Requirements:**

If approved, future development of the property will require approval of:

1. Civil Plans (staff approved)
2. Building Plans (staff approved)

**Staff Recommendation:**

Staff recommends approval of this request, as presented. In addition to Community Development staff, the plans were reviewed by the City Engineer, Fire Marshal and Public Works staff.
