Item Title: Consider a Resolution approving a contract with WRA Architects Inc to provide consulting and design services for the Police Station Dispatch Renovation Project and all related issues.			
Attachments: Resolution Contract Proposal Reviewed by Legal			

Item Summary: The City seeks to engage WRA Architects Inc to provide professional architectural / engineering services for the Police Station Dispatch Renovation Project.

This project aims to expand the current dispatch center to provide the needed service to the City’s growing community and the Forney Independent School District. Currently, dispatch operates with two full consoles in the dispatch center. This renovation will allow two additional consoles for a total of four consoles. To facilitate this change, we will move the current office dedicated to the communications supervisor to a different location as well as the dispatch restroom. This area will allow additional space for the extra two consoles.

The contract rate is not to exceed \$24,500. Any additional services beyond the original scope of work are subject to review and acceptance by the City Manager before any costs are incurred.

Police Station Dispatch Renovation Project – Estimated Budget	
Design	24,500
Construction	350,000
Technology Expense	130,000
Furniture, Fixture, Equipment	190,500
Contingency	52,500
Total	747,500

Funding is available in the CIP General Fund to support the project.

Staff recommends approval of the Resolution.
