

PROCLAMATION

FORNEY

TEXAS

Whereas, National I.T. Professionals Day is celebrated on the third Tuesday of every September, to recognize the technical experts — network engineers, system administrators, database admins, ethical hackers, and many more types of I.T. professionals — that make sure our computer systems run smoothly; and

Whereas, information technology draws on a highly educated and skilled U.S. workforce of nearly two million people, a number which has continued to grow during the past decade; and

Whereas, booming technology, economic and demographic shifts continue to rapidly change our world, making it more important than ever for organizations from small businesses to government agencies to embrace effective information technology practices; and

Whereas, it takes a solid set of skills and talents to fill the shoes of an I.T. pro so, today, we say thanks to the people who come to fix our devices when they stop working the way they should — the behind-the-scenes operators without whom we'd be back in front of an archaic chalkboard, doing things the hard way;

Now, Therefore, I, Amanda Lewis, Mayor of the City of Forney, do hereby proclaim September 20, 2022, as

National IT Professionals Day

in the City of Forney, Texas.

In Witness Whereof, I hereunto set my hand and official seal this 20th day of September 2022.

Amanda Lewis, Mayor
