Item Title: Discuss and consider authorizing staff to purchase 2 Fleet vehicles for the Fire Department not to exceed \$195,000 for the vehicles and related equipment and authorize the City Manager to take all necessary action.			
Attachments: Quotes/Price Estimates			

Item Summary:

Staff is requesting approval to fund and move forward with purchasing 2 F-150 vehicles and all related equipment to upfit the vehicle for the Fire Department. Currently, the Fire Department does not have any spare vehicles for times when maintenance and training are required. The purchase and upfitting of these 2 vehicles would allow the Fire Department to have 2 fleet pool vehicles to be used to attend classes and take the place of a vehicle that is downed for maintenance so that they are able to continue to carry out operations without any hinderances.

Estimated cost per vehicle, which includes the purchase of the vehicle and upfitting, is \$96,000.

Funding is available in the undesignated fund balance of the Capital Purchase Fund for \$180,000 of this cost and the remaining amount would come from the escrowed money for Fire apparatus replacement fund to support this purchase.

Staff recommends approval of this resolution.
