RE: Recommendation of Award for the Forney Fire Station 3 Interim General Contractor

Dear Ms. McQuiston,

After receiving all of the bids back from the Fire Station 3 Interim RFP, FDCS has vetted the low bidder, Home Run Construction. Home Run Construction has committed to offer up suggestions that would lead to even more savings on the project should the City want to entertain his suggestions based on product availability and durability. With their eye on savings, constructability, and quality of work, FDCS recommends moving forward with Home Run Construction for the Fire Station 3 Interim project.

Sincerely,

FDCS, Founder

Jerry Fitzpatrick
